Status:
Scheduling: We are actively scheduling the technician visit - be that for a pre-installation site survey or the installation. Be on the lookout for the dispatched appointment within the next week or two.
Scheduled: Barring unforeseen circumstances, the technician will be onsite for your site survey or installation on this date.
Completed: The technician has completed the visit. Next step: the experts are in the process of confirming that your cameras are functioning properly (receiving adequate sunlight, connecting regularly to the cellular network, taking high-quality images, etc.). Once that part is complete, we will grant access to your camera footage.

Visit Types:
Site Survey: The technician will confirm that the locations previously agreed upon will work for the installation. The technician will place white flags at each location according to the plan you approved.
Installation: The technician will follow the plan based on the results of the site survey.
Maintenance: Our systems have identified an issue with your camera and a technician will be onsite to resolve the issue.

Stay Safe,
Your Flock Safety Team
